WHAT IS YOUR M

MOODS

by Interceramic

MOODS by Interceramic is basically a concept that acts much the same as a mood board (also called an inspiration board), which is used by designers to help clients visualize a design concept or theme.

You know how they say a picture is worth a thousand words? Perhaps a MOOD does just that. MOODS is a collection of products that are selected based on their compatibility to harmoniously blend within a select color palette.

MOODs by Interceramic represents a colorscale that is comprised of on trend colors offered within the wall tile collections. These colors are the base which ground each MOOD. Each MOOD shows wall tile colors in which a concept or MOOD may be created by adding complimentary product to carry out the theme.

We invite you to find your MOOD.
