Flammability: 1
Reactivity: 0

(Ratings use five divisions from 0 to 4; 0 = no special hazard / 4 = severe hazard.)

1. Product Information

A. Product Name: Vinylasa Resilient Vinyl Composition Tile and Plank.

B. Description and Ingredient Information: These vinyl flooring products are produced for residential and commercial (architectural) market place use. They come in a wide variety of aesthetic designs, styles, colors, and sizes.

These product formulations do not contain asbestos.

2. Miscellaneous Information

Each of these products is classified as an "article" according to Title 29 of the Code of Federal Regulations, OSHA Part 1910.1200 (c). They are formed to a specific shape or design during manufacture, have end use functions dependent upon their shape or design, and do not release any hazardous chemical under normal conditions of use.

3. Warning

Do not sand existing resilient tile and sheet flooring, backing, or lining felt. These previously installed products may contain asbestos fibers that are not readily identifiable. Avoid creating dust; inhalation of asbestos dust may cause asbestosis or other serious bodily harm.

4. Notice

Various government agencies have regulations governing the removal of in-place asbestos containing materials. If you contemplate the removal of a resilient floor covering structure that contains (or is assumed to contain) asbestos, you should determine whether such regulations apply.
